

Funnel for Stand-up Kibble

- The CKUF200 Concrete Funnel Tray provides a safe and manageable solution for pouring concrete into columns, formwork, or any confined space.
- Unit is supplied standard with 1.5 metre* lay-flat hose that facilitates a smooth, controlled flow of concrete to delivery point.
- The CKUF200 can be easily retrofitted to existing kibbles while the lifting handles allow for safe and easy positioning.
- Installation or removal from kibble can be performed in a matter of seconds and the kibble’s chute doesn’t have to be removed when using funnel tray & hose.

Code	Details	Tray Dimensions (mm)	Unit Weight (kg)
CKUF200	Funnel for stand-up Kibble	772x702x239	18.5
