

Self Dumping 1500kg Capacity Waste Bins

- These self dumping waste bins provide an economical solution to collecting and disposing of industrial waste
- To empty the bin the operator places the front feet of the bin inside the edge of the bulk dumpster or skip then drive backwards until the tines clear the pivot point and then raise to allow the bin to tip forward
- Manufactured from 3mm plate and features reinforced edging and crane lugs
- Fitted with a removable drain plug
- Optional wheel kits available on request
- Safe Working Load: 1500kg
- Finish: Galvanised
- Crane and upending lugs fitted as standard
- Fork Pocket Size: 185x70mm
